BlueRock Diamonds PLC

("BlueRock" or the "Company" or "BRD")

Diamond Sales and Production Update

BlueRock Diamonds plc, the AIM listed diamond mining company, which owns and operates the Kareevlei Diamond Mine in the Kimberley region of South Africa ("Kareevlei") announces an update on its August 2017 diamond sales tender and production.

In August 2017, a parcel of 400.06 carats was sold at tender, achieving an average of \$330 per carat. The diamonds produced and included in August's sales tender has resulted in a grade of 2.07 cpht showing an increase to Kareevlei's previous average diamond grade achieved during 2017 of 1.7cpht.

As noted previously production has continued to improve with July's total production of 20,200 tonnes representing an increase of 40% on the production achieved in June 2017. The total tonnage for August is on target to exceed July's total.

Adam Waugh, Chief Executive Officer of BlueRock Diamonds, commented: *"I am pleased to say that our efforts over the past 18 months continue to bear fruit. Having recently raised capital to further improve our production levels and provide working capital, we are on track to reaching our target production of 25,000 tonnes per month. Prices per carat continue to exceed expectations and recovery grades are beginning to improve.*

"We are now well on our way to achieving profitable mining with the expected further improvement to grades as we begin processing the sub 20 metre level kimberlite in September."
